This video explains the fundamental concepts behind amplitude. In this video, I explain how messages are transmitted over electromagnetic waves by altering their properties—a process known as modulation. A term simply not used as it is math related. It pretty much means the amplitude (volume) of the signal. Example 4.3 in Matlab. Showing how the amplitude is related to the power. In this lecture, we will understand the relationship between amplitude and power. This video lecture discusses a problem based on amplitude modulation. VTU Communication Theory Lecturers: Amplitude
